Suggested Care Instructions for Cotton/Poly Blend Sparkly Apparel

To preserve the beauty and longevity of your garment, it is highly recommended to follow these care instructions:

- Washing: It is best to wash your cotton/poly blend sparkly apparel in cold water, preferably inside out. This will help prevent any damage to the fabric and maintain its sparkle.
- Fabric Softener: It is advised to avoid using fabric softener when washing your garment. Fabric softeners can sometimes cause the sparkly embellishments to become dull or lose their shine.
- Drying: After washing, it is best to line dry your sparkly apparel. Avoid using a dryer as the heat can potentially damage the fabric and embellishments.

By following these care instructions, you can ensure that your cotton/poly blend sparkly apparel stays looking fabulous for a long time to come.

Suggested Care Instructions for our Rhinestone Drinkware:

When it comes to taking care of your rhinestone tumblers, sublimated rhinestone tumblers, and rhinestone flasks, proper handling is key to maintaining their sparkle and shine. Here are some recommended care instructions to ensure the longevity of your dazzling drinkware:

- Handwashing is best: We highly recommend handwashing your rhinestone drinkware using warm water and a mild dish soap. This gentle method helps protect the intricate rhinestone designs and prevents them from coming loose.
- Avoid the dishwasher: Please refrain from placing your rhinestone tumblers, sublimated rhinestone tumblers, and rhinestone flasks in the dishwasher. The high heat and harsh detergents can damage the rhinestones and compromise the adhesive holding them in place.
- Keep away from the microwave: Rhinestone drinkware is not microwave safe. The intense heat generated in microwaves can cause the rhinestones to melt or detach, ruining the aesthetic appeal of your sparkling drinkware.

By following these care instructions, you can enjoy your rhinestone drinkware for years to come while keeping them looking as dazzling as the day you first got them.
